

No-Flog™

This unique tool can be used to stop back nuts turning during the make up or break out of nuts up to 4 5/8" AF. Each tool covers two bolt sizes in one and is quickly and easily fitted and removed. The No-Flog™ is spark free and unlike traditional flogging spanners, has been designed to avoid locking onto the application during bolt torquing operations. This self-supporting and hands free tool will save you time and money through speeding up the bolting process, whilst improving safety.

HTL's No-Flog® range is available in sizes from 1 1/16" AF, 27mm AF up to 4 5/8" AF, 120mm AF, however non-standard customer requirements can also be met. Standard imperial and metric kits are also available.

Features and Benefits

- ✓ Hands free
- ✓ Made in the UK
- ✓ Supplied with a tether as standard
- ✓ No trapped fingers
- ✓ 2 sizes in 1
- ✓ Spark free
- ✓ No flogging hammer required
